# Beuerlein's Carnations

We are pleased to submit our 1939-1940 pamphlet in which we have listed several of our new seedlings. We believe these to be supreme in their respective classes.

We are offering for sale, only the varieties which have proved to us, to be good commercial carnations.

Due to limited supply on some varieties it will be to the advantage of all customers to place their orders as early as possible.

Rooted cuttings ready for delivery from December to June.

The habit and growth, stem and calyx is good, with silvery foliage with a wonderful constitution. A great Carnation in every way. Size of flower 3 to 3½ inches and it is a very good keeper.

White ground, heavily striped pink, towards the edge of the petals, a charming coloring. The flowers are large, with rich perfume. The growth is exceptionally robust, healthy and free flowering. In Dairymaid we have the finest variety of this or similar colorings. It seems faultless and is a joy to cultivate. Both trade and amateurs cherish this variety. A good keeper and a grand show variety.

It is almost faultless, with silvery foliage and the strongest constitution. The best crimson Carnation for all purposes, and winner over all other crimsons at the last carnation show held at Radio City.
